Notes: It is required that campers wear water shoes or old sneakers that fully enclose feet for water activities. This will prevent oyster shell cuts and other injuries. It will likely be very hot and sunny, make sure and pack extra water and sunscreen. Pack swimsuit everyday just in case events are cancelled, the municipal pool is our backup activity. For mountain biking day, bring bike and helmet if available, anything with studded tires will work (no beach cruisers). We will transport them to mountain biking area in our trailer, parents are responsible for bringing them to Halyburton Park. As mentioned in schedule, we have two mountain bikes for campers use.
